Radhakrishna Kamaraju

Digital Transformation & AI Delivery Leader · Automotive & Manufacturing

Paris, France radhakrishna.kamaraju@gmail.com linkedin.com/in/radhakrishna-kamaraju radhakrishnakamaraju.com

PROFILE

Delivery leader with about twenty years in automotive IT, running multi-workstream transformation programmes for global manufacturers across France, the UK and India. Now embedded in digital transformation at a global automotive powertrain joint venture. Alongside the day job, I build and ship my own AI agents and assessments, to learn what actually reaches production.

EXPERIENCE

PMO & Digital Transformation Lead 03/2026 – PRESENT

Tech Mahindra, embedded at a global automotive powertrain joint venture · Madrid & Paris

- Lead PMO and digital transformation across a multi-entity joint venture, connecting IT synergy, governance and the transformation roadmap.
- Designed the IT synergy and digital maturity frameworks used to prioritise investments and brief the Board.
- Run the Microsoft tenant consolidation workstream: option evaluation, scoring and decision rights across three entities.

AI Enablement & Offerings Manager, Manufacturing 06/2025 – 02/2026

Tech Mahindra · Paris

- Built AWS and NVIDIA partnerships to co-develop AI solutions for European manufacturers; qualified AI use cases with Sales and Delivery against quantified ROI.
- Designed commercial and pricing models for the manufacturing AI practice.
- Led a carve-out progress assessment for a powertrain joint venture, which led to my current engagement.

Customer Delivery Manager 2020 – 2025

Tech Mahindra, for the European HQ of a Japanese automotive OEM · Paris

- Owned delivery, governance and RFPs for an account of about €10M overall contract value, with a team of up to 120.
- Grew the Aftersales SAP account from a minor enhancement into a fixed-price forecasting and replenishment win, then the S/4HANA Phase 1 win.
- Set up financial controls, risk management and executive steering; more than 95% of programmes delivered on time over five years.

IS Delivery Manager & Application Architect 2016 – 2020

Tech Mahindra, same client · Paris

- Program-level interface between business and technology; agile governance, quality and automation practices that reduced rework; mentored teams across France, the UK and India.

Onsite Coordinator, then Systems Analyst & Developer 2006 – 2015

Tech Mahindra, for global automotive OEMs · Sunderland, Paris, India

- Coordinated change and enhancement work on pan-European automotive IT systems; requirement sign-offs and documentation reviews cut project turnaround by 20%.

SELECTED PROJECTS

- **Industrial AI Index** · Free AI-readiness assessment for manufacturers across four areas, with a tailored AI-written report. Live at industrial-ai.radhakrishnakamaraju.com
- **Clawdia** · Personal AI assistant on my own server, reachable on Telegram; the ten-day build is documented on LinkedIn.
- **Ask this site** · Small AI assistant on my website that answers only from public site content, with built-in usage limits.
